*is an investment in friendship,
in convenience, in security . . .
ready always to smoothly speed
your day's work, bring aid in
emergency, to carry the priceless words of loved ones.*

A Limitless Service for a Few Cents a Day

Just as Pop Said "Hello" Mom Came in With Two Ladies

A long distance call came for Pop when he was getting ready to go to a banquet and he was answering it with his shirt off and lather all over his face when Mom came home from a party and two ladies with her.

Mom and Pop both got as red as anything and the ladies acted like they didn't see Pop and when they left Mom gave Pop heck. Pop wanted to know what he could do, he had to answer the telephone.

"I'll tell you what you could do," Mom said. "You could have an extension telephone put in upstairs like I've told you often enough." "I guess you're right," Pop said, meaning we'll probably have a telephone upstairs pretty soon.

NORTHWESTERN BELL TELEPHONE COMPANY

D

GENERAL OFFICES, TELEPHONE BUILDING, DES MOINES, IOWA

C. E. Campbell, District Manager, Waterloo, Iowa

E. L. Simpson, Manager

Call "Repair Service" if your telephone is out of order.
Call "Chief Operator" to inquire about a call in process of completion.
Call "Manager's Office" for all business transactions such as applications for service, changes in service, directory listings, directory advertising, inquiries regarding bills or charges or to report unsatisfactory service of any kind.

How to Use the Telephone

Obtain the correct telephone number from the directory. If not listed, call "Information."

Speak slowly, clearly and directly into the telephone, with your lips about one inch from the mouthpiece, so that you will not be misunderstood.

When your telephone is not in use, always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

In answering a call, for example, say, "Mr. Jones speaking," or "Smith & Co., Jones speaking." This method of answering identifies you and saves time. It is desirable to answer calls in this manner both from business and residence telephones.

Long Distance Service

To make a long distance call, ask the operator for "Long Distance." When "Long Distance" answers, give her your name and telephone number and the details of the call. If the distant town can be reached promptly you will be asked to hold the line.

Different rates apply to different classes of long distance calls. Rates for station-to-station calls are lower than for other classes. After 7:00 P. M. reduced rates apply on station-to-station service except for short distances. Charges may be reversed on all classes of calls. A report charge applies when the party answering the called telephone refuses to accept the charges and the call is not completed.

To obtain the rates to any town, call "Long Distance." To obtain the charges on a call at the close of your conversation, notify the long distance operator when you place the call.

GENERAL RULES AND REGULATIONS

Allowance for Failure of Service—The Telephone Company does not guarantee uninterrupted working of its lines or equipment. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an adjustment will, upon application by a subscriber, be made in the amount of the charges for such of the service, equipment, and facilities furnished as are rendered useless or inoperative. Any adjustment shall apply only to the period the interruption continues beyond twenty-four (24) hours after notice of the interruption is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

Right of Access to Premises—For the purpose of inspecting, repairing, or removing any part of the Telephone Company's equipment, apparatus and lines, the Company's employees shall, upon producing proper identification, have the right of access to subscribers' premises at any reasonable hour.

Errors in Directory Listings—The Telephone Company issues directories to assist in furnishing prompt and efficient service and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors in and omissions of, directory listings but they may occur and the Telephone Company will assume no liability for damages caused to a subscriber because of such errors or omissions. Likewise the Telephone Company will not be a party to controversies arising between subscribers or others as a result of listings published in its directories.

Connection of Unauthorized Equipment and Appliances—Subscribers shall not use or permit to be used in connection with the equipment or facilities furnished by the Telephone Company any electrical or mechanical apparatus or device not provided by the Telephone Company or permit the attachment of advertising or other devices. Telephone instruments have been designed to produce the best results and are necessarily sensitive and intricate. The use of any apparatus or device in connection with such instruments or the attachment of any apparatus or device to such instruments generally interferes with telephone service. In order to protect the service, the Telephone Company reserves the right to remove from the instruments or facilities any equipment, apparatus, or device of any kind in any way connected therewith other than that furnished by it.

Care of Equipment—The telephone equipment, apparatus, and lines furnished shall be carefully used and cared for by the subscriber and shall be surrendered to the Telephone Company upon termination of the subscriber's right of use in as good condition as when received, ordinary wear and tear alone excepted.

All ordinary expense of maintenance and repair, unless otherwise specified in the Telephone Company's tariffs or in the contract for the use of the equipment, will be borne by the Telephone Company. In case of damage to, or destruction of, any of the said equipment, due to negligence of the subscriber, the subscriber shall pay either the cost of replacing the equipment or the cost of restoring the equipment to its original condition.

Moves of Telephone Equipment—Telephone equipment installed on the premises of subscribers shall not be moved from one location to another except by a representative of the Telephone Company. For any changes in location of telephone equipment or wiring the subscriber shall be required to pay the established charges for making such change in location.

Outgoing and Incoming Service Privileges—The tariffs and rate schedules of the Company govern and fix the outgoing service of a subscriber and in no manner guarantee to him the same incoming service. All incoming service of a subscriber depends upon and is limited by the right of a calling subscriber to such service.

Default of Payment or Other Violation of Regulations—Charges for exchange service and facilities are due in advance. Charges for toll and long distance service are due when the bill for such service is rendered. All bills are payable at the Telephone Company's business office. Failure to receive a bill does not exempt the subscriber from prompt payment of his account. The subscriber is held responsible for all charges for exchange service and facilities furnished at his request and for all toll and long distance service furnished at his station or stations, including charges for toll messages received at his station or stations on which the charges have been reversed. In the event of default of payment of any sum due for either exchange or toll service or both, the use of foul or profane language, the impersonation of any other person with fraudulent intent, listening in on party line conversations, or any other violations of the Telephone Company's regulations, the Telephone Company may either suspend service or terminate the service without suspension.

Telephone Service links farms to town so that farmers and business men can buy and sell to best advantage . . . so that folks are kept together and the community is united.

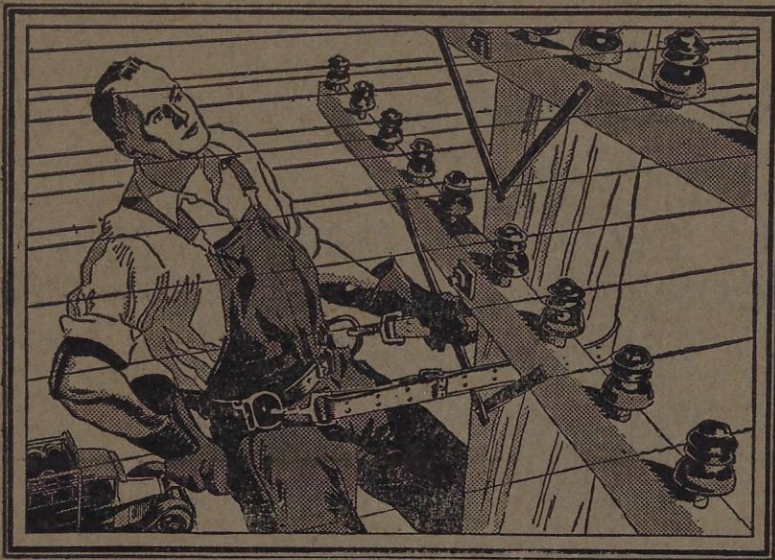

"A Doctor...*Quick!*"

Persons who have used the telephone in emergencies appreciate the protection it gives . . . the peace of mind which comes from knowing help can be called instantly.

Recently a South Dakota farmer wrote us:

"The telephone has made it possible to call a doctor as in case of accident; has saved lives as happened not long ago when a neighbor got his foot in a threshing machine and it was cut off. It saved his life."

In one emergency the telephone may be worth more than its cost in a lifetime

. . . So that you
can talk with any-
one, anywhere!

You may not know where the nearest fire department station is . . . but if you were to wake up tonight and smell smoke, you could summon fire fighters almost instantly . . . *by telephone.*

A friend may have moved to another city . . . you may not know what the house looks like or how to go there in person . . . but you can be there and talk with him in a few minutes . . . *by telephone.*

The wires that connect your telephone with the central office are part of a system of voice highways which reach into the homes and offices in your own community, throughout the United States and connect with foreign countries.

For a few cents a day you can take an unlimited number of trips *by telephone* in your own community . . . for 60 cents you can talk 100 miles . . . longer distances for even less per mile.

Miles seem shortest and cents go farthest when you use the telephone

"Long Distance" has a personal appeal that no letter can convey. It is like being there in person.

How glad you are to hear over the telephone that some member of the family has arrived at a destination. It banishes worry. The next time you're away, telephone home.

USE LONG DISTANCE
