EMERGENCY CALLS

FIRE (to report a fire).....Dial **4381**
F.B.I. (Long Distance) Omaha, Nebr.**Webster 8118**
For assistance in an emergency**Dial Operator**

TELEPHONE SERVICE CALLS

For assistance in calling
To make a Long Distance Call }**Dial Operator**
For numbers not listed in the directory }
For business transactions with the Telephone Company
.....**Dial Operator ask for "Business Office"**
To report a telephone out of order**Dial Operator ask for "Repair Service"**
Telephone bills may be paid at Meredith Drug Store, 109 1st Street W., or the
payment may be mailed to the Northwestern Bell Telephone Company at Cedar
Rapids, Iowa. If no answer is received on calls to the Operator, notify our
agent, Meredith Drug Store, 4512.

TO CALL LISBON DIAL 15 and then the Lisbon number.

USE OF THE DIAL PHONE

Obtain the correct number from the directory.

Listen for "dial-tone" a steady "humming" sound.

Dial Carefully—Dial each figure of the number in the order in which it appears in the telephone directory. Suppose, for example, you wanted to dial 2345. Place the forefinger firmly in the dial opening through which the figure 2 is seen. Next, turn the dial around in a clockwise direction until the finger strikes the finger stop. Remove the finger and allow the dial to return automatically. Then dial each of the remaining figures in the same manner. A "burring" sound heard at regular intervals indicates the bell of the called telephone is being rung. A "buzz-buzz" sound will be heard when the line is in use.

TO CALL ANOTHER PARTY ON YOUR LINE

Dial the party-line code, not the listed number. If the first three figures in the number you are calling are the same as those in your number, that telephone is on your line. To dial a party-line telephone, dial 9, then the last figure in your number and the last figure in the called number. For example: to dial 2345 from 2346, dial 965. Immediately upon dialing the party-line code number, hang up to permit the bells to ring. Your bell will stop ringing when the called telephone is answered. Then remove receiver and start your conversation. When no answer is received remove receiver for a few seconds and replace it to stop your bell from

ringing and disconnect you from the called telephone.

LONG DISTANCE SERVICE

Call Station-to-Station when you are willing to talk to anyone who answers.

Call Person-to-Person if you wish the operator to reach a particular person by name or title, or a department or private switchboard extension number.

To Make a Long Distance Call—Give the operator the name of the town you are calling and the telephone number, followed by the name if you want a person-to-person call. If the number is not known give the name and address and state whether it's a station-to-station or person-to-person call. Hold the line unless there is a delay and give your number when the operator asks for it.

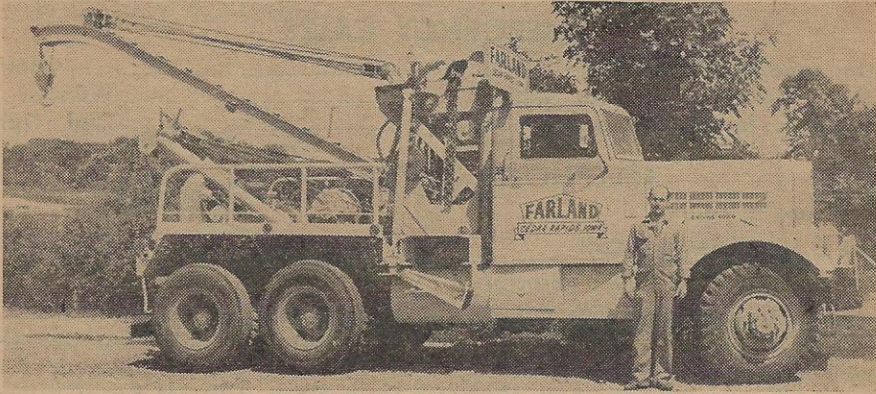

Reduced Rates are in effect every night from 6 P.M. to 4:30 A.M. and all day Sunday on calls from distances of about 60 miles or more.

Collect Calls—Charges may be billed to the called telephone without extra cost except on station-to-station calls within Iowa of 20 cents or less for the initial period, and interstate calls of 25 cents or less for the initial period. These take a higher rate when placed collect.

Telephone Recording Signal—A short high "beep" tone heard at 15 second intervals indicates your conversation is being recorded. The signal is provided by the telephone company for your protection. If you do not want your conversation recorded ask the person with whom you are talking to disconnect the recording machine. Use of a recorder without a signal is unlawful.

Correct Telephone Habits
bring
Good Telephone Service

Be quick to answer
when your telephone
rings.

Be slow to hang up
after you've placed a
call . . . give them
time to answer.

Be sure you replace the
receiver when you're
through talking.

Your co-operation will help everyone
get good telephone service.

CEDAR RAPIDS BLOCK COMPANY

Dial 3-2657

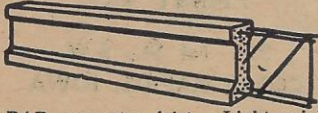

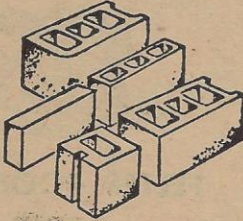

650 TWELFTH AVE. S.W.

CEDAR RAPIDS

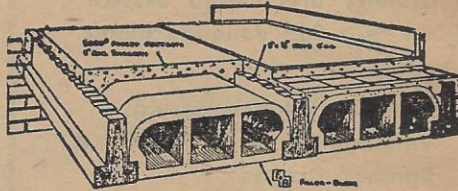

DUR-O-WAL
patented steel reinforcing which gives masonry walls a backbone of steel.

LIGHTWEIGHT and CONCRETE BLOCK

Lightweight Block is self-insulating and sound resistant. Cedar Rapids Block is vibrated, steam-cured, economical, uniform. Both Lightweight and Concrete available in complete line of sizes and shapes.

LITH-I-BAR concrete joist. Light-weight, reinforced for safe, economical, fire-safe construction.

F & A Precast Concrete FLOOR and FLOOR SYSTEMS
Economical, flexible, fire-safe. Adaptable in any finish, both floor and ceiling.

THOROSEAL
to fill and seal masonry surfaces. Ideal for interiors and exteriors.

QUICKSEAL, available in lovely colors for a beautiful finish.

KEMIKO concrete stain is not a paint, but a dye to give permanent beauty to all masonry surfaces.

**"That's right, operator ...
Washington, D. C. The number is
Adams 1085 ... I'll hold the line ..."**

Long Distance operators can now dial direct to telephones in many distant cities. To gain the benefit of this faster service it's necessary for Long Distance to have the number—otherwise he must call Information in the distant city to get it.

To make it easy for you to keep a list of out-of-town telephone numbers, we've prepared a handy personal directory. To get your copy — free — just call, write or stop in at your nearest telephone office. There's no charge, of course. We'll supply the numbers for you, too, if you give us the names of people you frequently call.
